

FMCSA Systems Release Notice

December 30, 2009

Updates to the following FMCSA safety applications were released on December 30, 2009: CaseRite, EMIS, and Query Central. Functionality delivered by this release was made available on Thursday, December 31. A general listing of application data updates, fixes, and overall enhancements is below. For additional details or if you have questions, please contact the Federal Motor Carrier Safety Administration (FMCSA) Technical Support team at 617.494.3003 or FMCTechSup@dot.gov.

FMCSA Central Systems

The following updates were released on December 30, 2009.

EMIS (Enforcement Management Information System)

The following changes were implemented in EMIS.

1) Overall enhancements

- EMIS will now accept the new version of CaseRite (3.10.1).

Query Central

The following changes were implemented in Query Central.

1) Overall enhancements

- A "State" column has been added to the Out-of-Service (OOS) display on the Carrier Summary page. Query Central will now display if a carrier has multiple "Intrastate OOS orders" for various states. The alert language to reflect Federal and/or State OOS orders has also been updated.

FMCSA Field Systems

The following updates were released on December 30, 2009.

CaseRite 3.10.1

The following changes were implemented in version 3.10.1.

1) Application fixes

- An issue where the Notice of Violation (NOV) served date would appear on the first page of the NOV instead of the date of the Compliance Review/Inspection has been corrected.
